

Appl. No. 10/710,617
Amdt. dated September 06, 2006
Reply to Office action of July 10, 2006

Amendments to the Specification:

Please replace paragraph [0016] with the following amended paragraph:

The present invention aims to maintain or reduce the number of the conducting lines of a
5 flexible cable, and provide for functions of all pins of the spindle motor drive chip 24 on
the sub-board 20 and the laser diode drive chip 34 and the photo detector chip 36 of the
optical ~~disk-drive~~ pickup head 30. That is, the present invention provides only one
conducting line to signals having similar function for connecting the main board 10 with
the sub-board 20.
